

YOU BUILD. WE GUARD.

## David Samuel

CO-FOUNDER & CEO

Peris.ai Cybersecurity

### PROFILE

#### Location

Jakarta, Indonesia

#### Education

Bandung Institute of Technology  
Osaka University

#### Previous Role

Co-Founder & CTO Ritase.com

### EXECUTIVE PROFILE

# Building Faster, Smarter Cyber Defense

David Samuel is the Co-Founder and Chief Executive Officer of Peris.ai, an AI-driven cybersecurity company focused on making security operations faster, more adaptive, and easier to scale. With a background in technology venture building and engineering leadership, he guides Peris.ai's strategy across product innovation, regional growth, and enterprise cybersecurity transformation.

#### Leadership principle

Cybersecurity should adapt faster than threats evolve, using intelligent orchestration and automation to help teams stay ahead.

### Leadership Mandate

#### ● Integrate security operations

Connect attack, defense, and compliance capabilities through a modular cybersecurity ecosystem.

#### ● Accelerate response

Apply agentic AI and hyperautomation to detection, investigation, orchestration, and remediation.

#### ● Scale regional impact

Build enterprise-ready cybersecurity for organizations across Southeast Asia and beyond.

### Selected Company Milestones

**2022**

#### Founded Peris.ai

Co-founded the company to build accessible, AI-powered cybersecurity solutions.

**2023**

#### East Ventures-led funding

Secured funding to advance the platform, AI capabilities, and ethical hacker ecosystem.

**2025**

#### Regional recognition

Peris.ai won the WAICF Banking & Finance Award and joined the EWC Global Top 100.

#### PERIS.AI AT A GLANCE
