Telecom Fiber Optic Installation Machineries and Services

GOWIN FLOAT MASTER

Macro Fiber Cable Blowing Machine

Pushing Unit

GOWIN FLOAT MASTER Macro Fiber Cable Blowing Machine

Hydraulic Power Pack

Available with Honda GX270 Petrol / Kohler LD441 Diesel Engine

Key Features

01

**Aluminium
Fabricated
machine with
rugged and
long lasting
performance**

02

**No fear of rust
or corrosion
even when
used in water
logged area**

03

**Anodized
aluminium air
chamber to
prevent fungus
and corrosion**

04

**Complete dust
proof covering
to ensure long
life and
reliability**

05

**Specialized
Rubber pad
attached chain
drive
manufactured
on strict
quality control**

06

**Hand picked
Heavy duty
fasteners, nuts
and bolts used
in each and
every part of
machine**

07

**Complete unit
assembled
with Branded
spares to make
it highly
realiable**

08

**Strict Quality
Control
Process to
compete with
International
standard
machines**

Rust free and Corrosion free Aluminium Pushing Unit gives you long lasting and sturdy performance with less noise and vibration

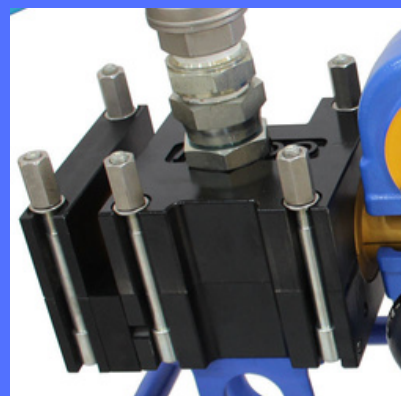

9HP Honda Petrol or 11HP Kohler Diesel Engine used in Hydraulic Power pack for speedy installation of cables

Branded Bosch Rexroth 20LPM Hydraulic pump ensures high reliability and efficiency

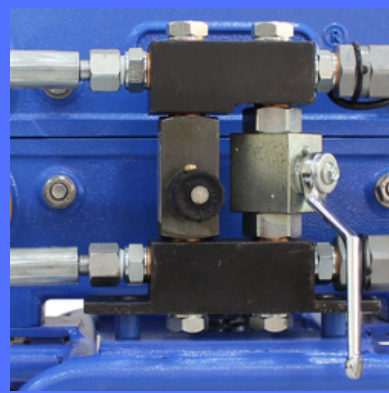

**Aluminium oil tank fitted in power pack
Hydraulic oil will heat up during circulation in the hose.
But Aluminium tanks enable self cooling of hot oil**

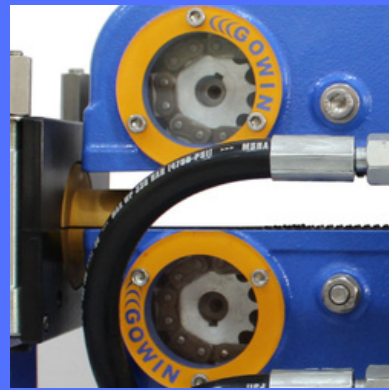

Air Chamber made of HE30 grade gives longer life

Unique Elements

Premium Quality accessories in Flow Control Valve and Heat resistant long life hydraulic hose to withstand high pressure

High quality steel, hardened gears and rails with low maintenance and long running of machine

Safety Valves in both Blowing unit and Power pack for longer hassle free pumping of oil with option to shut down in critical situations

Hydraulic Hose with Dust cap protected QRC coupling for quick connect and removal in both power pack and pushing unit

High quality specially designed Rubber Top Chain for longer life and better performance

Unique Elements

Technical Specification

Cable Blowing Unit

Fabrication	Die Cast Aluminium
Finishing	Powder coating
Type	Hydraulic
Cable Dia	08 to25 mm
Duct OD	25 to63 mm
Pushing Force	0 to 680 N
Linear Pressure on Cable	94 N/cm
Max. Speed	80 m/min
Recommended Speed	50 to 60 m/min
Max Air Pressure (bar)	12 bar
Max Water Pressure (bar)	25 bar
Cable Pushing Distance (Blowing Method – Air)	4000 meters
Cable Pushing Distance (Floating Method – Water)	8000 meters
Air Inlet Camlock Coupler	40 mm

Hydraulic Power Pack

Type of Engine	Honda Petrol 9HP or Kohler Diesel 11HP
Engine Max. Power	6.5 kW
Engine Max. Speed	3600 rpm
Pump Delivery Rating	20 l/min
Pump Hydraulic Pressure	100 to 150 bar

General Specifications

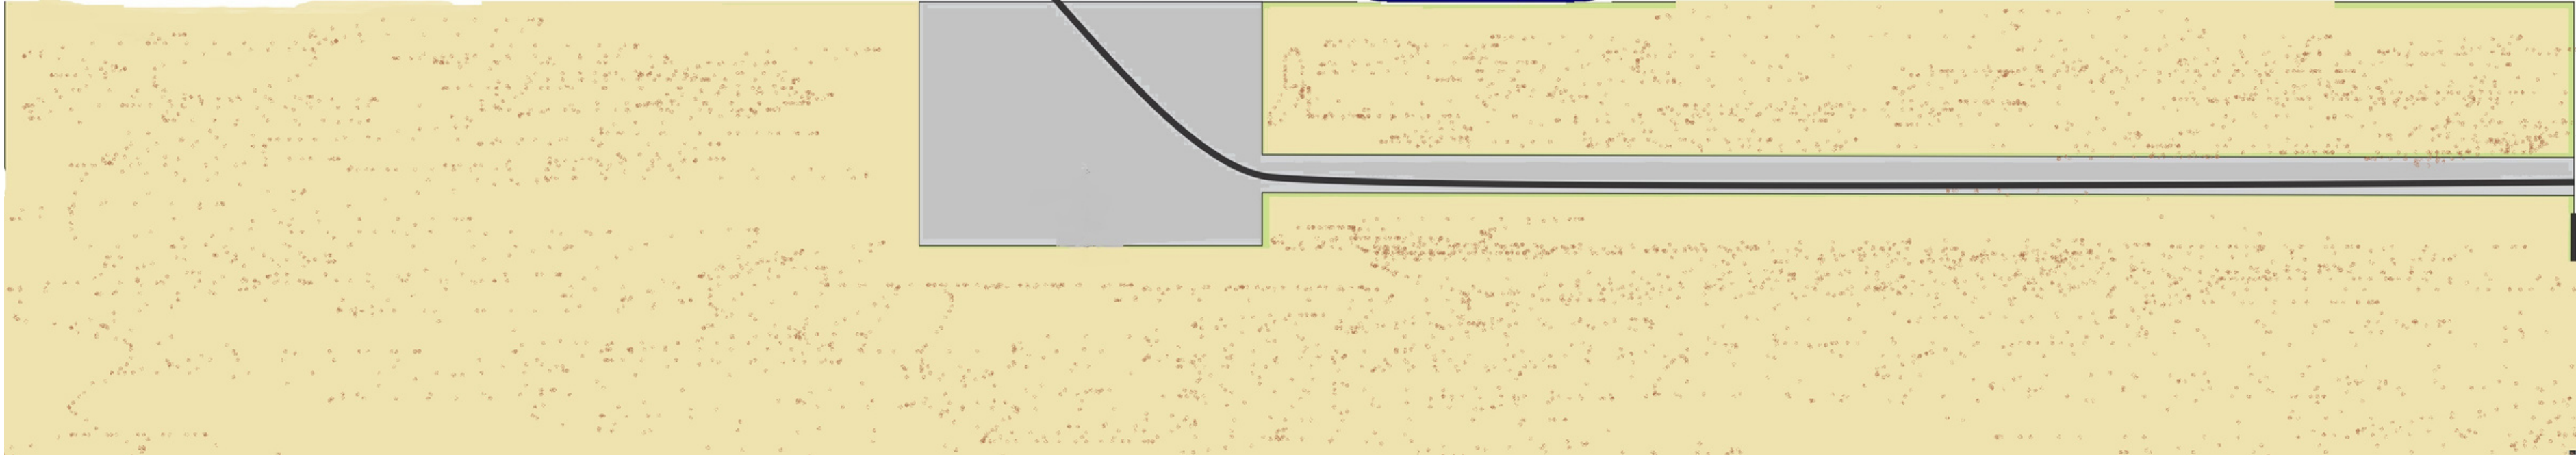

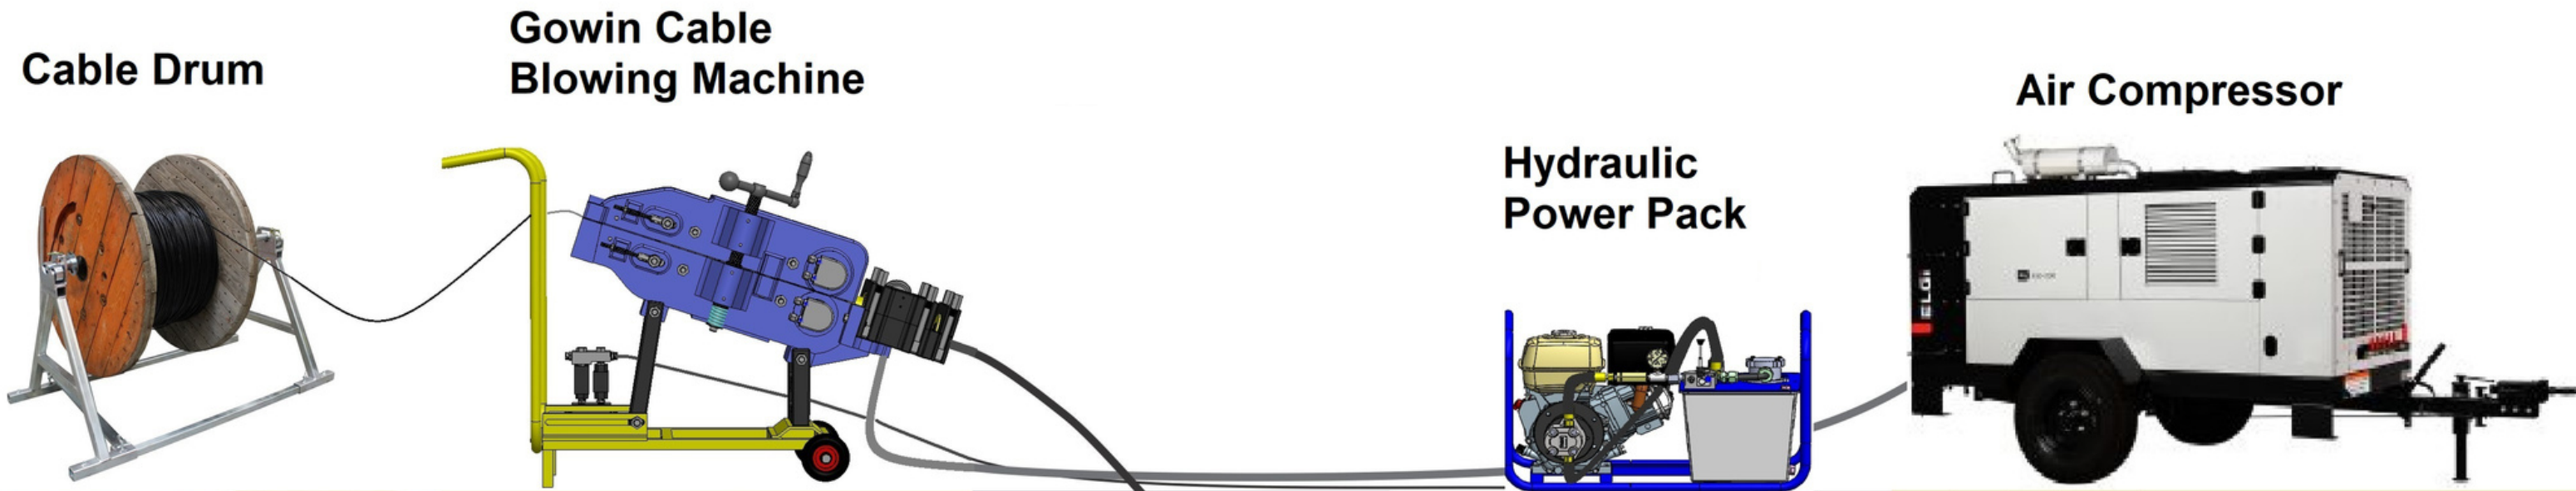

Size of Power Pack	85 x 32 x 40 cm
Size of Pushing unit	83 x 40 x 54 cm
Weight of Power Pack	90 Kg
Weight of Pushing unit	45 Kg

Water Jet Specifications

Type of Centrifugal Pump	150 LPM @ 18 bar
Engine	Briggs & Straton 18BHP @ 3600 RPM
Weight	80 Kg

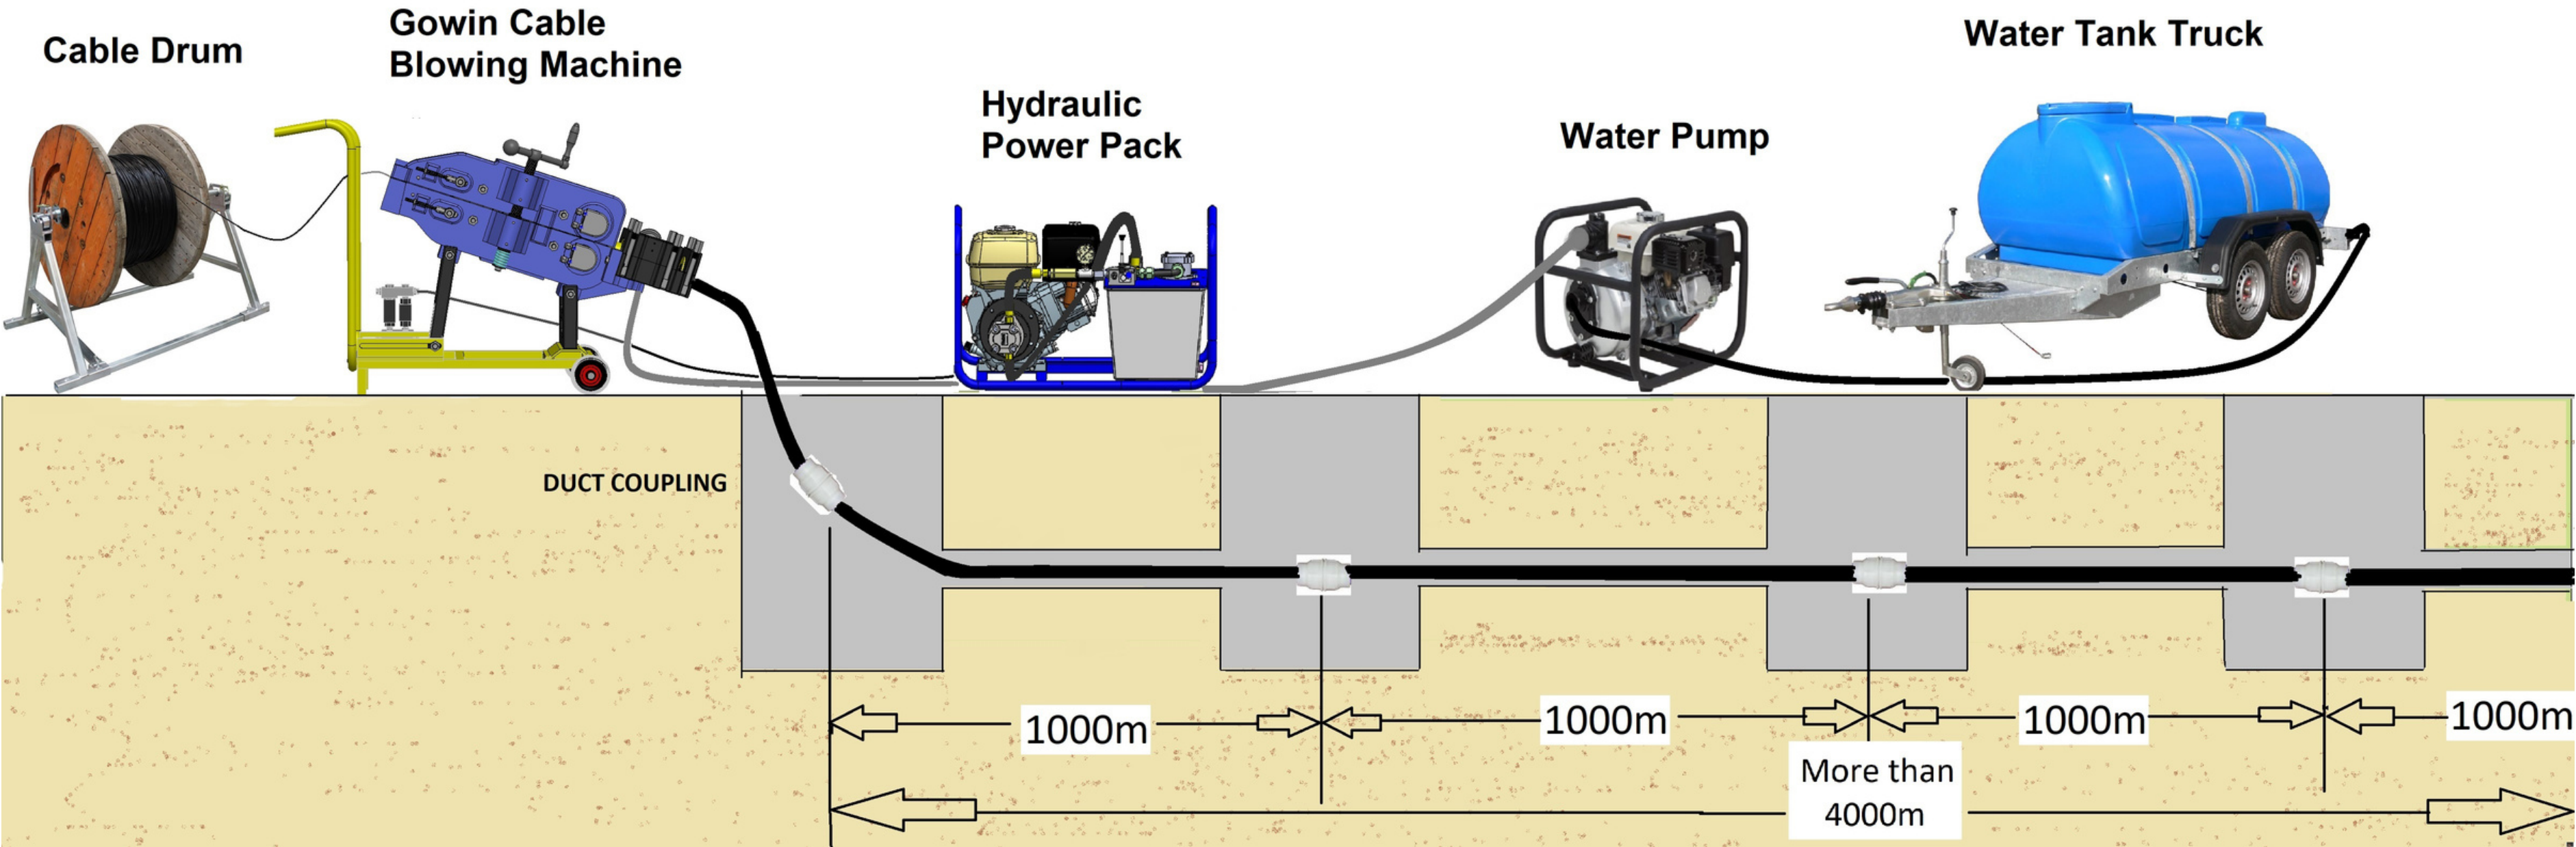

Cable Blowing With Air Compressor

AIR JET MODEL

Cable Blowing With Water Pump

WATER JET MODEL

STANDARD PACKAGE

- GOWIN Float Master Blowing Machine -1 No.
- Hydraulic Power Pack with BOSCH Hydraulic Pump and Engine (Honda GX270 petrol or Kohler LD440 Diesel engine)
- Aluminium split coupler 30 mm to 50 mm dia any one size
- Hydraulic Hose 3/8" with QRC couplingwith dust cap
- Venturi
- Collet and Clamps of size 30 to 50 mm any one size
- Rubber 'U' seal lips 10 mm to 20 mm.
- PVC pipe cutter 40 mm.
- Allen Key set.
- Spare Swing Bolts and Nuts

Optional :

- Spare Rubber Top Chain
- Cable Blowing Lubricant
- Air Filters and Oil Filters for Engine and Hydraulic oil tank

The Package may vary accordingly as mentioned in the quote
