

Azhar Muhammad Fuad, S.ST., M.B.A.

+62-819-0204-2323 (WA Available) | Born at 1993 | West Java-Indonesia | azhar.fuad.17@gmail.com

A. Professional Summary

I am a professional that focused on management in planning, production, and engineering. With strong education background in engineering and management, strengthen by personal capabilities and experiences, the best skill that I have is **"the eye of improvement"** which makes me able to see the problems, determine the root cause, and plan & execute the correct countermeasure(s). My improvements have been proven could bring positive outcomes for the company and **saved billions of rupiahs of cost (cost down)** in every company that I have worked before. **Currently building my own startup that focus on system management especially in tourism sector.**
